

VEDANT VIVEK BUTLE

WEB DESIGNER & AI ENGINEER

7796041818 | vedantvbutle@gmail.com | <https://github.com/vedantbutle19> | www.linkedin.com/in/vedant-butle-a4966126a

EDUCATION

Bachelor Degree 2022-2026

St. Vincent Pallotti College of Engineering And Technology , Nagpur
B Tech in Artificial Intelligence

12th Boards 2021-2022

Insight Junior College , Nagpur
Maharashtra State Board (PCM)

10th Boards 2019-2020

Swarnleela International School , Wani
10TH CBSE

TECHNICAL SKILLS

Web Development	Figma	Python	GIS Libraries	Excel	Open CV	Machine Learning
DSS Development	React	Javascript	R Language	PostgreSQL	PowerBI	Microsoft Tools

PROJECTS

Soil Erosion Decision Support System

- Developed a web-based DSS for soil erosion risk assessment using the RUSLE model. Performed spatial analysis and factor layer processing using R language (raster, terra, sf) and ArcGIS. Integrated Leaflet.js for interactive mapping with real-time pixel-wise value extraction — users can click on any location/coordinates to instantly retrieve the soil erosion risk value at that specific pixel. Built as a decision support system for soil erosion modeling.

Safety Kit Detection System

- Built a real-time PPE (Personal Protective Equipment) detection system using YOLOv11 to identify missing safety gear (helmet, vest, gloves) from live camera feeds for industrial safety monitoring. Achieved 99.4% detection accuracy with low latency. Implemented using Python, Ultralytics YOLO, and OpenCV.

Brain Tumor Classification & Segmentation Model

- Developed a deep learning-based model using U-Net architecture and CNN for accurate brain tumor segmentation and classification from MRI scans. Implemented image preprocessing, data augmentation, and model training using Python, TensorFlow/Keras, and OpenCV. Achieved 98% segmentation accuracy.

EXPERIENCE

- | | |
|---|------------------|
| AI/ML & web development Intern at (ICAR NBSS-LUP) | Jan - June 2026 |
| AI/ML & web development Intern at OYSTER INFRACON | June - July 2025 |
| 5+ Freelance Projects | |

KEY ACHIEVEMENTS

- Appointed as Placement Coordinator for managing placement activities and student–recruiter communication. (2025-2026)
- Successfully coordinated and managed 3,000+students as a Cultural Coordinator of the College Fest (2025).
- Served as a Documentation & Creative Team Member for a National-Level Event (2024).
- Worked as the Creative Head and Query Resolver for the Prompt Engineering – Gen AI College Event (2024).
- Participated in Backstage Support and Event Management for the College Fest (2022).
